Thanks, Jody.

Did anyone from the Air Program get back to Sheila on her question about glycol dehydrators?

Subject: Possible FIP Information

Hello - hope you survived the blizzard yesterday, how crazy! So I am attaching a draft high level, conceptual bullet list of what we are currently thinking about for our permit by rule approach. I was just wondering what you were thinking of doing with dehydrators? I am still learning about these and my folks here are not sure what to do and wondering if we could maybe get an understanding of the direction you are heading in? Not sure if you are able to or if we can discuss on phone, thanks so much!

Sheila
